# MOBILE 8 Mk 2

## Mobile Fire Suppression Unit

#### DESCRIPTION

The Hydramist® Mobile 8 Mk2 unit is designed to provide a mobile source of high pressure water mist fire suppression.

The unit comprises a high pressure, high specification pump with an electrically driven single phase motor, automatic pump control, on/off switch and an integrated 35 litre water tank.

The unit offers stand-alone fire protection using an integral supply of water and powered by a single phase mains supply (country specific mains connectors are supplied to suit).

The system has been tested in association with the Ministry of Justice; Buildings Research Establishment (BRE); the Commonwealth Scientific and Industrial Research Organisation (CSIRO Australia) and the British Standards Institute (BSI).

The Hydramist® Mobile 8 Mk2 unit has been proven to extinguish fires quickly and effectively, reducing smoke within the cell and adjacent areas to life-sustainable levels. Additional fire tests with BSI, the Hydramist® Mobile 8 Mk2 successfully extinguished Class A Solid Fuel and Class B Liquid Fuel fires.

# Mobile 8 General Features

- 35m high pressure, impact & flame resistant hose
- •10m electrical lead c/w 3-pin 13A moulded plug (UK specification)
- Integral water tank
- •Hydramist® Low Flow Nozzle (7 L/min)
- Lockable security cage (as an option)

## **Applications**

- Prisons
- Custodial
- Heritage Building
- Offices
- Public Spaces
- Archives

### Standards

Compliant to:

- EN 3-7
- •MOJ/M/SPEC/045
