

Grilles

SG - Light Duty Security Grille

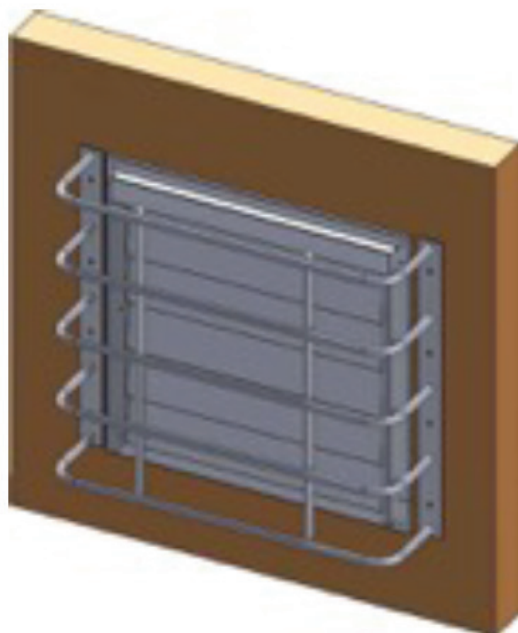

The SG range is designed for medium protection, the standard SG range comprises 2 mm galvanised steel punched security grilles with 40 mm square apertures to match AFP pressure vent FVA. The units are mounted onto factory wall liners with steel rivets.

On external walls, the grilles are covered by DWL exterior louvres. Available off the shelf.

SG HD - Heavy Duty Security Grille

SG HD range is constructed with 16 mm dia steel bars welded into a 6 mm steel frame, the SG HD range is built to SEAP security ratings. The grille is installed into the external wall with fixing bolts through the wall liner, and can be hidden with a DWL exterior louvre. Units can be retrofitted. The FVA matches that of AFP's pressure vents. On an exterior wall the grille is hidden by a DWL/EXP exterior louvre unit.

SG AV - Anti Vandal Security Grille

SG VA range is an anti vandal grille which is fitted to the outside wall with security bolts. Constructed with 16 mm dia steel bars welded into a 6 mm steel frame. The grille is installed into the external wall with fixing bolts directly into the external wall over the top of the DWL exterior louvre. Units can be retrofitted.

The FVA matches that of AFP's pressure vents. Made to order, lead time 5-10 working days.
