

Z Frame

AFP Z Frames are stub ducts that adapt SHX UN and DUX pressure vents, and DWL external louvres, into thin walls, doors and cladding.

They facilitate surface mounting of pressure vents inside containers or other thin walls, and provide weath-erproof cover boxes for protruding vent bodies.

Z Frames also allow neat installation of DWL Louvres onto exterior building cladding

PRODUCT SPECIFICATION

Product Code	Z300	Z500	Z700	Z1000
WxHxD	420x420x120mm	620x620x120mm	820x820x120mm	1120x1120x120mm
Weight	2.91kg	4.98kg	9kg	12kg

PRODUCT INFORMATION

- Robust 1.2mm welded steel construction
- Easy installation
- Steel powder coated construction RAL 9003 signal white as standard, special colours available upon request
- Manufactured to ISO-9001
- Five year guarantee
- All sizes are available off the shelf
